WHO IS VALANTIC FSA

20 years of experience in building **advanced trading platforms** for low latency pricing, quoting and trading across **fixed-income** markets covering Repo, Rates and Credit.

I'm here to take you through our **repo offering** and what sets it apart.

Benefits for the business

Simple to use.

We cover all workflows for the European, UK, and US repo markets.

Aggregate all pre and post trade data across all the repo markets.

Manage all the inventory and send orders across markets with just a few clicks.

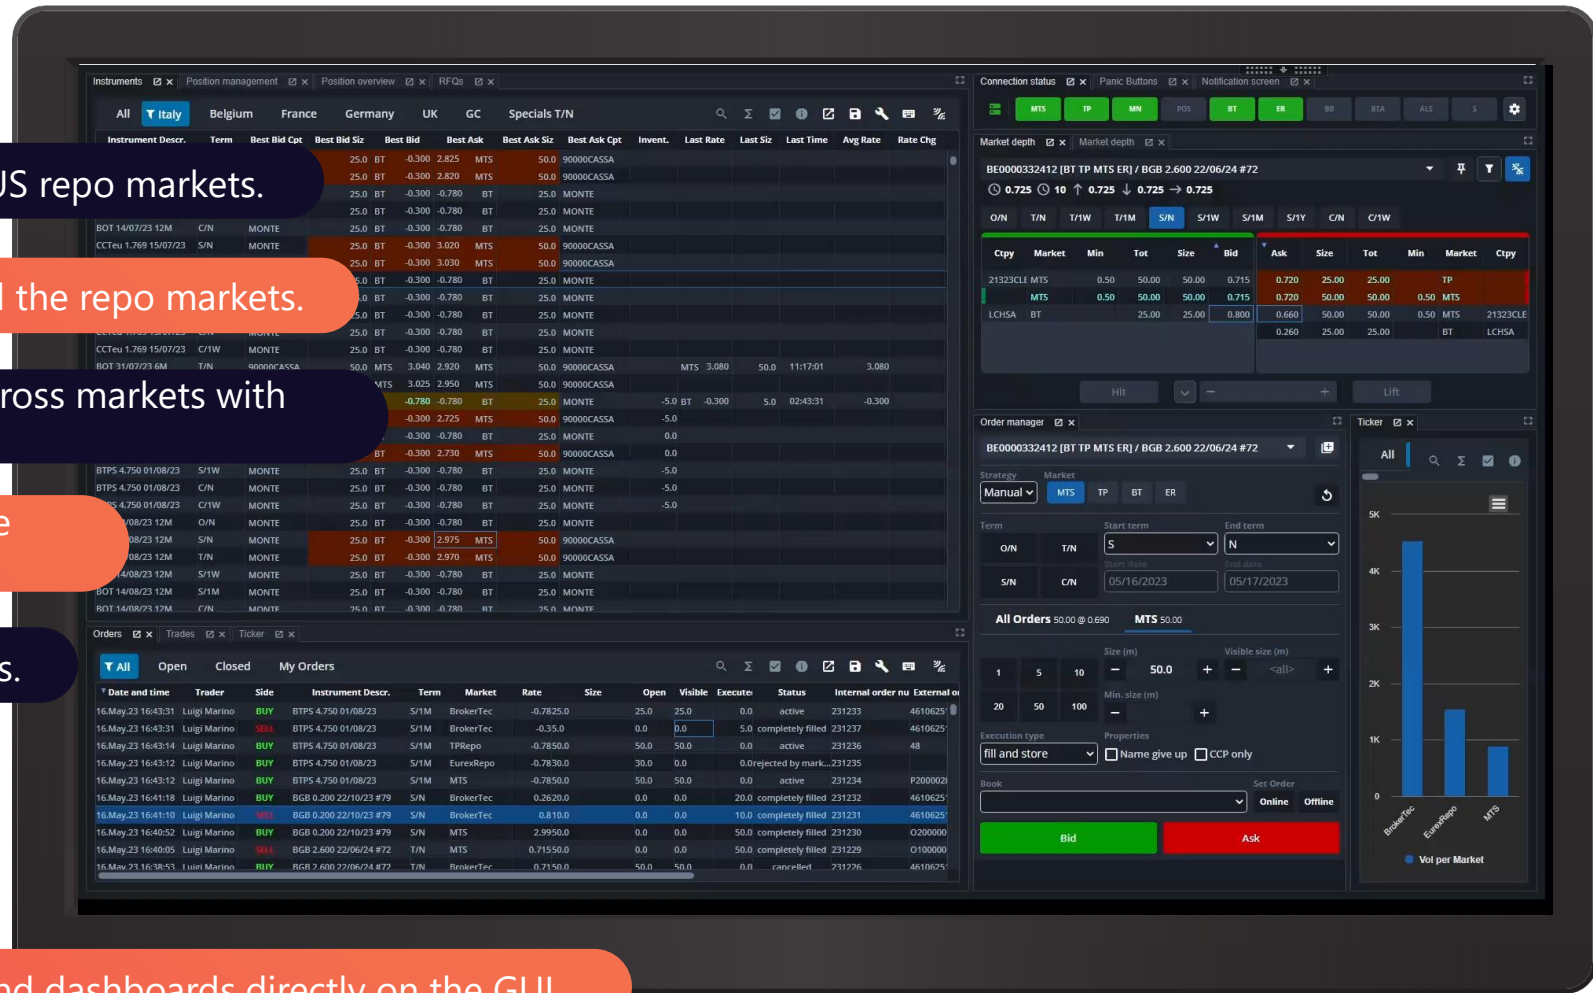

Send orders on multiple venues at the same time.

Monitor the market using multiple watchlists.

Modern look and feel.

Instantly available, no start-up time.

Advanced filters and the ability to create charts and dashboards directly on the GUI.

Benefits for technology

HTML5 Web User Interface

No installation

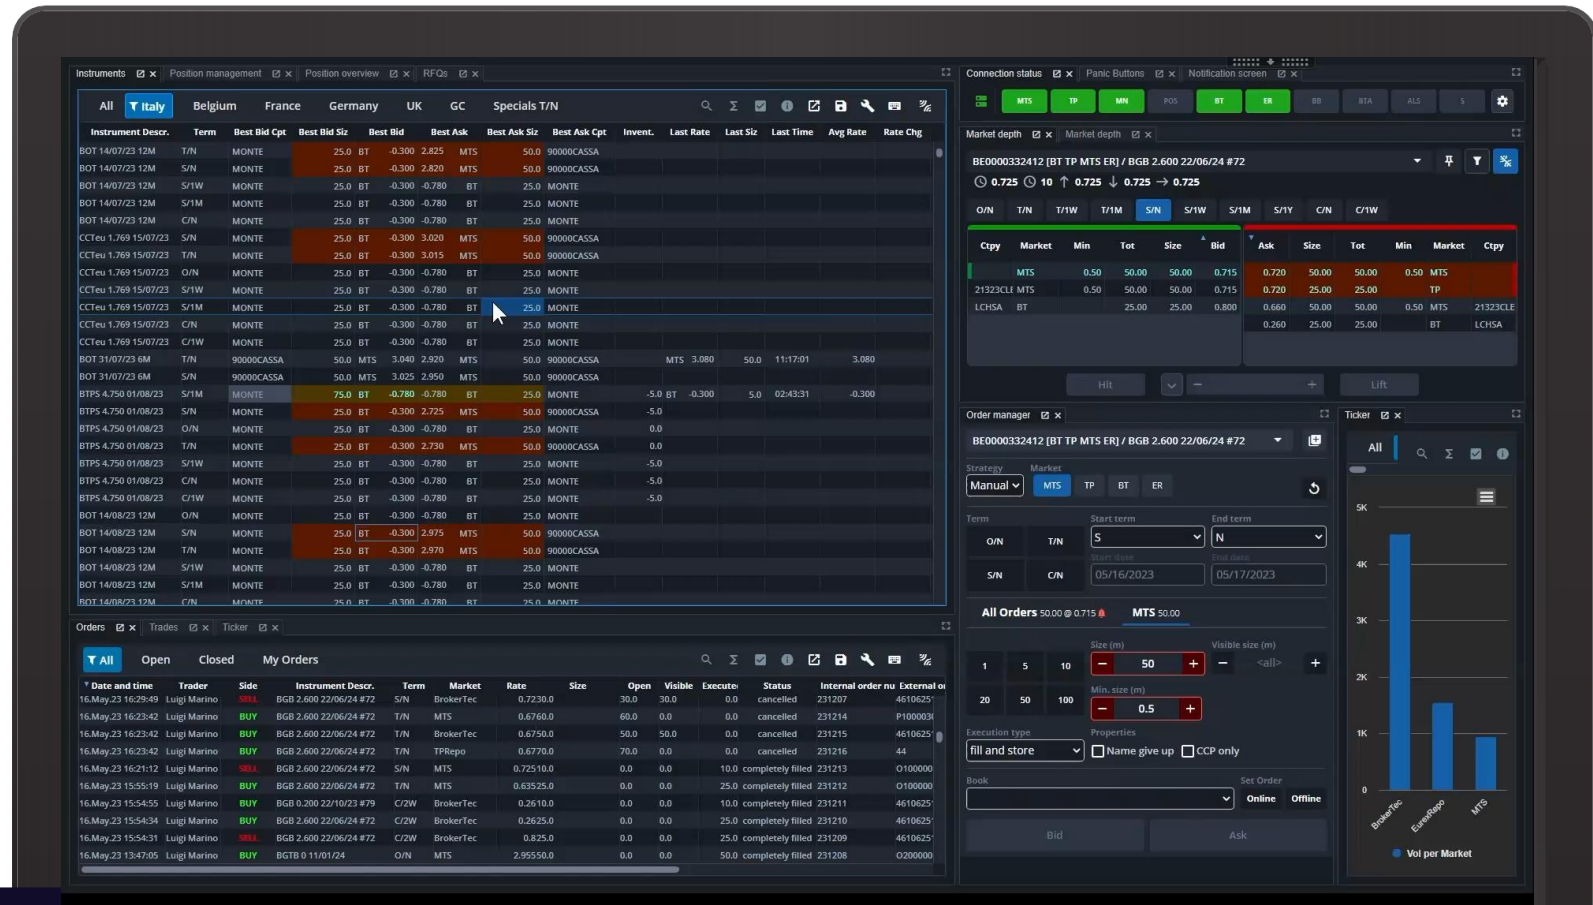

Instant deployment of new releases

SaaS based delivery model

Addresses infosec concerns/compliance

FDC3 / Interoperability

Blueprint for the modernization of other valantic FSA products including our sales trader workflow and bond trading platform.

Want to learn more?

Come and see us in the exhibition hall booth #6.
